

Figure 1: Genomic data visualization across 15 samples. The samples are grouped into four categories: v0.6 stvar, v5.0q stvar, v4.2.1 smvar, and v5.0q smvar. The heatmaps show the distribution of values across the genome, with red indicating higher values and blue indicating lower values.

Legend:

- v0.6 stvar
- v5.0q stvar
- v4.2.1 smvar
- v5.0q smvar
